India-Northern Ireland / UK Bilateral Trade

- **UK-India total trade**: approximately **£48 billion** in 2025.
- **UK-India CETA**: signed 24 July 2025; entered into force **15 July 2026**. Provides duty-free or reduced-tariff access for 99% of Indian goods entering the UK and around 90% of UK goods entering India.
- **Projected impact**: bilateral trade expected to rise by a further **£25.5 billion** a year; UK GDP gain of **£4.8 billion** annually; India GDP gain of **£5.1 billion** annually.
- **Northern Ireland's position**: benefits from CETA's UK-wide tariff reductions while retaining unique "dual market access" to both Great Britain and the EU under the Windsor Framework — a combination not available to any other part of the UK.
- **Key NI sectors trading internationally**: advanced manufacturing and aerospace (£2.2 billion+ in annual revenues), software and fintech, life and health sciences, agri-food, and cybersecurity.
